The UNIVERSITY of VERMONT

Message from the President

Dear Graduates, Families, Friends, and Colleagues:

For the 206th time in the history of our institution, the University of Vermont community gathers today to celebrate the achievement of our graduates and send them forth from this beautiful campus on the hill in Burlington.

As the members of the Class of 2010 mark graduation, it is natural to reflect upon some of the shared experiences of your time as University of Vermont students. We have come together to hear from diverse and distinguished speakers such as Martin Luther King III, Elie Wiesel, Jon Stewart, and Harry Belafonte. We have cheered on Catamount athletes to conference crowns, NCAA tournament appearances (and victories!), and numerous individual championships in skiing, enjoying a particularly exciting spring as Vermont was one of just two schools in the country to see our men's basketball, women's basketball, and men's hockey teams all earn spots in their respective NCAA championship tournaments. During your years at UVM, you have witnessed the transformation of our campus landscape. Some of the members of the Class of 2010 were the very first residents of the new University Heights residence halls. A year later, you returned from summer break to the opening of the Davis Center, which has become the hub of campus life during your years here. And as we celebrate this commencement weekend, we take another step forward with the ribbon cutting for Jeffords Hall.

While these shared experiences unite all of our students, it is the individual memories of inspiring professors, engaging courses, and close friendships that will be at the core of your lifelong memories of this place. Though our graduates leave the ranks of University of Vermont students today, they join the ranks of University of Vermont alumni, a rich, complex community stretching far beyond the borders of our campus.

Families and friends, thank you for the support and care you have provided the graduates throughout their time at the University. You share in their accomplishment and success. On behalf of all of my colleagues, please allow me to say that we feel deeply moved and privileged to share this moment of pride and achievement with you.

SPEAKER AND DEGREES HONORIS CAUSA

Eric K. Shinseki

Doctor of Laws
Commencement Speaker

Eric K. Shinseki was considered an American hero long before he was nominated by President Barack Obama to serve as the seventh Secretary of Veterans Affairs on January 21, 2009. A retired U.S. Army four-star General, Secretary Shinseki served as Chief of Staff, United States Army, from 1999 to 2003 when he retired from active duty, which included two tours in Vietnam.

During his tenure as Chief of Staff, Shinseki initiated the Army Transformation Campaign to address both the emerging strategic challenges of the early twenty-first century and the need for cultural and technological change in the United States Army. Following the September 11, 2001 terrorist attacks, he led the Army during Operations Enduring Freedom and Iraqi Freedom and integrated the pursuit of the Global War on Terrorism with Army Transformation, successfully enabling the Army to continue to transform while at war. Shinseki, who served as Vice Chief of Staff from 1998 to 1999, previously served simultaneously as Commanding General, Seventh United States Army; Commander Allied Land Forces, Central Europe; and Commander of the NATO-led Stabilization Force in Bosnia and Herzegovina.

Shinseki has been recognized for modernizing the VA and for administering benefit programs for veterans, their families, and their survivors in ways that better meet the needs of the twenty-first century. At the time of his appointment, President Obama said, "There is no one more distinguished, more determined, or more qualified to build this VA than Shinseki." He added, "No one will ever doubt that this former Army chief of staff has the courage to stand up for our troops and our veterans. No one will ever question whether he will fight hard enough to make sure they have the support they need."

Shinseki, who has a Master of Arts degree in English Literature from Duke University, was commissioned a second lieutenant of Artillery upon graduation from the United States Military Academy in June 1965 and was sent to Vietnam where he was wounded in combat in 1966. He returned to Tripler Army Medical Center, Honolulu, Hawaii to recuperate and subsequently was assigned as Assistant Secretary, then Secretary to the General Staff, U.S. Army, Hawaii, Schofield Barracks until 1968. He transferred to Armor Branch and attended the Armor Officer Advanced Course at Fort Knox, Kentucky, before returning to Vietnam a second time where he was again wounded in 1970. Shinseki was awarded the Defense Distinguished Service Medal, Distinguished Service Medal, Legion of Merit, Bronze Star Medal, Purple Heart, Defense Meritorious Service Medal, Meritorious Service Medal, and Air Medal among others.

Shinseki holds a Bachelor of Science degree from the U.S. Military Academy at West Point and is a graduate of the National War College.

Judith Buechner

Doctor of Laws

Judith Buechner of Rupert, Vermont is a farmer, environmentalist, ecological entrepreneur, and advocate for the public interest. Her commitment to environmental stewardship and sustainability, combined with her innovation and quiet leadership in the artisan cheese movement and the development of sustainable agricultural infrastructure, has helped to preserve and enhance the rural working landscape that makes Vermont the special place that it is.

As a partnership-builder, Judith Buechner quietly has led and energized land conservation collaborations throughout Vermont from the Mettawee Valley to the Hero Islands.

Beyond protecting the land, her compassion for working farm families and their animals led her to become one of the central activists creating and supporting programs and initiatives to keep farming viable here in Vermont. She is the parent of a UVM graduate and has been a prime mover behind many of the University's agricultural initiatives, including the Small Ruminant Dairy Project and the Vermont Institute for Artisan Cheese, two programs that have catalyzed the expansion of a nascent sheep and goat dairy farming movement and the related value-added cheese making operations which are critical underpinnings of Vermont's long-term agricultural viability.

Through her commitment to lifelong learning and exploration, Judith Buechner has helped current and future farmers and eco-entrepreneurs to develop the competency for success as

owners and stewards, as well as the wisdom and courage to "walk the talk" of sustainability.

Through her long-term vision, seventh-generation thinking, and passion for making a difference in her own terms, style, and scope, she has given back generously of her time and talents to our University and to all Vermonters. While she has shunned the limelight, preferring to observe the impact of her activism and community service in quiet anonymity, it has become impossible to hide her shining successes earned through decades of quiet leadership dedicated to preserving Vermont's working landscape and improving the quality of life for Vermont's citizens.

Judith Buechner is recognized for her reverence for the land and life-long learning, her cultivation of the University's capacity to act sustainably, and her entrepreneurial stewardship which already has created a legacy of opportunity that will benefit future generations.

Visionary, caring, and tireless, Judith Buechner has been a passionate advocate for farmers, land, learning, and the public interest: she embodies the best of Vermont's indomitable rural character and philanthropic spirit.

Susan Brody Hasazi

Doctor of Letters

Professor Susan Hasazi is an internationally known scholar in the field of special education and a trailblazing advocate for students with disabilities and their families. A faculty member in the University of Vermont's College of Education and Social Services since 1976, she is the Stafford Distinguished Professor of Leadership and Special Education and Director of the Doctoral Program in Educational Leadership and Policy Studies, which she developed. Hasazi's career in academia has been distinguished by significant contributions to research, public policy and the education of current and future leaders impacting the lives of children with intellectual disabilities.

Hasazi earned her M.Ed. at the University of Vermont in 1972 and her Ed.D. from Boston University in 1978. In 1982 she served as a Kennedy Fellow in the U.S. Senate. Her long list of influential published papers includes key articles, written in the 1980s and 1990s that are considered signature research pieces in her field and are still referenced today, in particular her work on post-school outcomes of youth with disabilities and practices and policies associated with the transition from school to adult life. Hasazi was also instrumental in the movement to integrate special education students into mainstream classrooms.

She has been named University Scholar and is the recipient of awards that include the prestigious Joseph P. Kennedy, Jr. Foundation International Award for her lifelong contributions as a scholar and educator in the field of special education.

Hasazi is presently co-principal investigator of a federally funded grant to train parents as collaborative leaders to better advocate for their children within their own school systems. She is also an evaluator for the federally funded National Parent Center network.

Colleagues of Hasazi praise her adept skills at influencing public policy, bringing her research to bear on real-life issues, and her relentless efforts to change the climate within schools, particularly in Vermont, helping principals and other leaders to see special education issues as she does – an integral piece of any broad vision of educational practices and outcomes. As a mentor to countless academics and education students, she has extended her reach further still, with many now serving in leadership positions across the state.

In recent years Hasazi has expanded her interests, working closely with the Vermont Agency of Human Services on evaluations related to women who are incarcerated and those with mental health issues. Ultimately, Hasazi views the body and scope of her work within the broader rubric of all social justice concerns.

Raymond C. Pecor Jr.

Doctor of Laws

Few of Burlington's native sons have given more of their time and effort to improving the quality of life of their hometown and state than Raymond C. Pecor. His contributions in the areas of transportation, entertainment and downtown revitalization have been critical to the economic development of the state for more than four decades.

Signs of Pecor's investments in the community can be seen all around Chittenden County where he grew up attending Burlington schools. Perhaps his most well-known venture was the purchase of the Montreal Expos' minor

league franchise in 1994 and his continued ownership of the team – now known as the Vermont Lake Monsters. Another of Pecor's investments can be seen less than a mile from his team's home park at Centennial Field where the renovated Champlain Mill sits on the banks of the Winooski River. Pecor's multi-million dollar investment in the historic mill in 1979 helped set the stage for the city's current revitalization.

Pecor, who attended the University of Vermont in the early 1960s and later served on the UVM Board of Trustees and UVM Alumni Council, has provided a critical mode of transportation between Vermont and New York since 1976 when he purchased the Lake Champlain Transportation Company. Currently run by his son, Trey, LCTC provides ferry service from multiple points on Lake Champlain, continuing a tradition started in 1826 that has served as a vital business and tourist connection between the regions.

Pecor, who previously owned Lake Champlain Cable TV and helped develop the Courthouse Plaza in downtown Burlington in 1987, has served on numerous local boards including as a director of Merchant's Bank for more than 30 years and chairman since 1996. He also served on UVM's then School of Natural Resources Board of Advisors and won the UVM Alumni Achievement Award in 1997.

Not one to seek the spotlight, many of Pecor's contributions to fledgling businesses and other local organizations in need of advice or financial support have been done anonymously and without the desire for recognition. Pecor continues to serve on local boards and give back to his hometown, the university and the State of Vermont.

ACADEMIC REGALIA

The Academic Costume worn today in U.S. colleges and universities is a survivor of the Middle Ages. The University of Vermont was among the first in this country to experiment with the use of academic gowns, requiring their wearing at the graduation of 1806. The experiment was not repeated until mid-century when UVM and other colleges began wholeheartedly to use the medieval scholar's clothing for ceremonial occasions.

The code regulating academic costume is administered by an intercollegiate commission that establishes uniform standards. BACHELORS' gowns have closed fronts and long, pointed sleeves. MASTERS' gowns may be worn open or closed and have oblong sleeves open at the wrist, the lower portion hanging down with an arc near the bottom. DOCTORS' gowns may be open or closed and have velvet facings and three velvet bars on the round, open sleeves. The facings and bars may be of black or of the official colors of the wearer's department of learning.

Hoods are usually black. All are lined in silk in the academic color or colors of the institution conferring the degree, with a chevron for additional colors. A University of Vermont hood is lined with green, with a gold chevron, the official school colors. The color of the hood border indicates the degree earned.

The Doctoral Silver Dollar

It has been said that in the 15th and 16th centuries, graduate students would proceed through local towns giving lectures. To reward them, townspeople would toss coins into their hoods.

Continuing this tradition, the University of Vermont has invited the dissertation advisor of each doctoral degree recipient to toss a 2010 commemorative mint silver dollar into the hood of their student's regalia. This coin is to symbolize the university's recognition of the doctoral student's long journey and hard work to achieve this high academic rank and their appreciation for the many contributions they have made to the University of Vermont campus community.

The Black Mortarboard is worn for all degrees. Only Doctors' caps may be made of velvet and only Doctors or Presidents of institutions may wear a gold tassel on the cap.

The Class of 1927 Memorial Mace is carried by the University Marshal at formal university occasions and is displayed on the platform during these ceremonies.

The Mace, a gift from the Class of 1927, is forty-seven inches long, cast bronze, plated in silver, with a black ebony handle. The sculpture on one of the four sides depicts the center section of Old Mill with Mt. Mansfield in the background, symbolizing the founding of the University. Other sides display three students reaching upwards to a lamp, symbolic of learning; the Ira Allen Chapel, symbolizing spiritual guidance; and a group of four persons, symbolizing friendship. It is crowned by the seal of the University.

The Mace was designed and the model sculpted by Richard Simpson, son of Carl G. and Doris Griffith Simpson, both members of the Class of 1927.

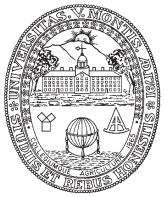
The University Seal or Medallion was adopted in 1807 and used until 1871 when it was replaced by a round seal incorporating the name of the College of Agriculture. In 1975 the Board of Trustees voted to restore the original seal to official use, modified to incorporate the Latin name of the College of Agriculture.



The motto on the seal is from Horace, *Epistles* 1.2.36. Literally, it means "For virtuous studies and matters." In the allusion to Horace's poem it reflects UVM's continuing belief in the utility and practicality of all liberal studies.
